8-23-84 - HB-670 at around 1745 the #2 engine lift
came on. At 1940 an alarm went off and
both pumps cut off at the same time.
I went to the overhead tank to check and
see if it had overflowed. It didn't.
There was 57 gals. of fuel in the overhead
tank.

Which is in the overhead tank

AS. SYNNER-JAMES-CAFFERS

RR. LUCAS

CHB. WOOTEN ^{WARD}

8/25/84

Someone at H.S.O. Pool messed with chain on baby pool and left it open. James went to check pool and big pool was 1 1/2' low. pump broke suction and was running but had to fill pool and prime pump and close chain on baby pool. It was either the 2nd or life guards that slid it. They were told to leave the valves alone. This was reported to me by Mr. Synner (hammer)

8-26-84 - 2130 - A. Riggs called and said someone had drown in the MP. pool. Judgement made. I went over with Riggs and PH was 7.4 and Chg was 0.5. Turned Chg up and left note for Jay to check Chg and let it get between 1.2 & 1.5 before he cuts back.
JPH

8-26-84 - 2220 - Duncan called from RR-85 and said the contractor had just left and that they had put a new gear in #2 filter controls.

check valve on curtain RD. closed. The check valve was tied
open with 1" rope. but there a 4 ton of rock on check
valve and broke rope and closed valve. Spiner is returning
a new rope temp. until it can be tied, and rock
got out. Spiner did outstanding job. (Lynn)

P.S. JT took a long time to find trouble but C.G. now
gained from 12' to 13' in 30 min after opening check valve.

1-27-85- Received complaints from Otis # ~~5877~~ Bushman,
(Chapman - 353-7357) and MOQ 2212 (Col. Formanek, 353-6655) that their
water smelled like "Kerosene". Chlorine sample at both Otis was
8 mg/l. Water at MOQ had a more pronounced odor,
especially in the hot water. No excess oil has come into the
plant and the reservoir looks clean. I topped off fuel for air engine
at fuel tank. Notified Mr. Fragalle.

2-12-85-1600 - Campbell received a phone call from Housing about bad water
at TI 407. He checked site at 1705 and called me at 1730. He said the
water was chlorinated at 0.8 Cl₂ residual and had no objectionable
taste or odor. The resident stated the water gave her and her
husband diarrhea. A woman living with them said she had been
to "chemical analysis school" and that to her it smelled and tasted
like something was "growing in it". The resident's name is
MARGO FRANCIS, Phone # 572-2600, TI 407. (S)

3-12-85-1700 - Received call from "Cindy" Williamson at gtr 2570.
Bougainvilleville, TT. She said her water tasted "funny" and that
her parents who were visiting thought the same thing. Riff went
to the gtr at 1745. He reported - Water clear - No
Taste or odor, CL₂ 1 PPM and a pH of 8.6. I shall follow
up Thursday with a lab sample. SP

3-13-85 - Riff reports that the fluoride feeder at TT is not
working properly. He says it seems to be sucking air. (D)
