11-19-85- 2000 - Campbell called at 1800 and asked if I knew
of any changes made at M.P. I told him I had been
informed of any. He said the pumps at M.P. had been
running but the chart showed his elevated tank was
full. He checked the tank and found it was overflowing
and that the valves from TI were closed. He finally
located a new valve that he had not seen before at the
elevated tank. He turned valve off and overflow
stopped. TI had 11'6" at 1600 - 8'8" at 2000. SP

1-24-86 - 1400 - [redacted] called and said he was sick and would not be in for 4-12 shift this evening. Called Peterson and he agreed to take 4-12 - at RR.

1-25-86 - 1230 - Kennedy notified me that a heavy flow of clear water was coming in to lift station at Boat Basin. Checked with Kelly and he said this chart had just started "straight lining". Sewage needed flow stopped so contractor could perform work. Turned off water at boat basin. Notified fire department, Steam plant, Mr. Price, [redacted] Mr. Johnson, [redacted] and alerted emergency maint. to the fact we may have leaks in that area.

1-26-86 - Was informed by [redacted] that they were not going to finish up at the Boat Basin until about 3 or 4 AM

1-26-86 - 0600 - [redacted] called in and asks to be put on A/NV due to his wife being sick.

1-26-86 - Called sewage plant at 0730 also called on radio but did not get any answer to the condition of Boat Basin. Water still off.

2-5-86 - I was informed at 1600 that there was a break at the boat basin and Colby was sent out to check it out. Colby found that the water had been cut back on and that a fire hydrant had been left running. A contractor said maint. had left around 3 o'clock after fixing a 2" line. Colby also found a major leak across from A-8 and said A-1 + A-2 had no water. Emergency maint notified and will fix it tomorrow. Fire department & Steam plant notified. Called Johnson about 7:15. Called Mack Jagels. Mack Jagels you do, do not do Mack Jagels. He flat out told me she is not part of water.

2-5-86 - 643 well - Aux engine runs for about 20 minutes and then cut off.

2-6-86 HP - C. Rupp - Christensen RR - Lee
 844 left IT - Stone - Milton CHB - Wartin
 MP - Martin OB - Duncan
 AS - Parker - Dunlap 670 - James - Henry

2-6-86 - AS - 3 sets of lights in finished water room cutting off and breaker for them has fuse melting out of the panel

3-23-86⁰⁸⁰⁰ - Rifle range heater not working. Notified C. Mairi's

3-23-86 - 1110 - Barber informed me there was a leak at
5th + 7th at Comp B-eyes. Notified C. Mairi. Still working at 1400.
Leak not secured as yet.

3-23-86 - Kelly reports trouble with brine tank at C.H.R. Ticket

3-23-86 Mike called at 1:15 + inform me that
he had 13' in tank + 8' in Res.
with both pumps on told him to
cut 1 pump off - it would be
right there when I got there
plumbing shop had leak at 5:30 P.M.
secured Res + tank Dept. at go up
began to look for leak called
Mr. Johnson through Emergency room (1945)
he said for me to call Mack S. Rydell
I found break at 11th + O intersection
before Mr. + Mack arrived secured tank
about 15 mins later 6" line. Res
got to 6' 4" Tank got to 8' 6"
had 30 PSI AT all time steam plant
did not shut down slow

3-23-86 ⁰¹³⁰⁰ [redacted] called + said he was at
Emergency room with [redacted] it would
be in as soon as possible

3-25-86-0940 - Received call from John Faoli (Housing-451-2246) He reported that a Mrs. Howlin, 1420 Toledo Rd, Knox trailer park was complaining of bad tasting water and that she wanted her water checked. She said she was going shopping and would not be back until 1330. She or Mr. Faoli wanted an appointment or time we would be there. I told him it would be difficult to give him a definite time but that we would try to get there after she got home. She told him her water has tested bad since she moved in in February. Her Phone # is 353-8417. Ⓟ

3-25-86 - Parker notified me that packing on well M-142 was leaking badly. Packing is on order and I was told not to write a ticket. SP

4.5.86 1115 Receive call from L. Holland,
Notified of schedule change. D.E.

4.5.86 1135 Receive call from D. Symier at
AS-110. He reported the influent valve
at the South Elevated Tank (Seiger) was
close he open it. The valve needs packing.

4.5.86 1240 [REDACTED] called
said [REDACTED] was sick wouldn't
be in 4.12 CHB today.

4.5.86 1300 called L. Holland, and S. Milla, several times,
concerning working 4 1/2 CHB today. No answer

4.5.86 I inform L. Parker that he would
have to work overtime 4.12 at CHB. He
stated he had severe car problems. He got
his car out of the shop last night, it
gave him problems coming to work today.
He felt it was to busy leaving job at
night in case of a breakdown. He didn't
want to work overtime due to this. I
told him that I would work being that
I couldn't get anyone to cover the
shift. D.E.

4-17-86 - Checked out our battery charger to MCAS. SP

4-18-86 - 1145 - Received call from [REDACTED]. He stated his
bursetis was bad and that he would not be able to
work at the RR this evening - 4-12. CHR will handle.

4-18-86 - 1330 - Checked out snapper mower to MCAS-110. (Christmas) SP

4-18-86 - 1415 - Supplies from outside plumbing picked up Crane. SP

4-19-86 - 1500 - Received call from Lt Maskey (C.G. duty officer at 0534)
He said TC-501 was over flowing and would not be going
on. I call the Air Station and was told by Milton that the
pumps had just shut off about 5 minutes before. He was
going to have Christmas check it out. I returned Lt Maskey's
call and told him we were taking care of it. SP

4-19-86 well 646 has a gas leak in aux eng.

4-20-86 - There was no power outage at 0630
as scheduled.

~~JRM~~

4-20-86. Well 610 will not run

Received shift change / was told
Booster pump ^{HP} was turned on at 0815
still on with 8' 0" in Res. Both
pumps came on at 1630

5-2-86

19³⁰ Riggs was down to 7' 0" at TI
went to turn on booster pump would
not start called Jimmy Nairn
for elect shop to send someone to
DD 39 to check, found bad switch
turn on at 2000 down to 7' 5" Res.
I went to TI to assist while
driving down Tavaua Blvd. I saw
12 location where the water was
running down street from sprinkler
sys. SSM

5-2-86

cut booster pump off at 2315 total (15hr)
gal pump from WP to HB 63000 gal

5-2-86

2330
meter on #4341 broken at CHB
not working reported by Mr. Adam

MAY 11 1986 ¹⁹⁰⁰ Opened valves to transfer water to TT
5/12/86 Value Closed at 0130

MAY 11 1986 - 2100 - [redacted] called and said [redacted] had called and
that they had received orders to evacuate due to the forest fire
I see checked out at 2100 - Fully informed to cover RR-85 for
Remainder of shift - 88

MAY 11 1986 - High water usage during evening. Even with the
dry - pass at Marston Pavilion open 670 was still calling
for #4 hi-lift at 2100. I went to the by pass valve
and on the way back I rode through Berkeley manure
Water was running in the gutters like it was raining.

T.T. Riggs C.H.B. Edwards
A.S. Collins Phillips M.P. Parker

6-6-86-2143 - Kelly reported light out in Chlorine room at CHB.
Reported to emergency maint. (SP) Bad switch Replaced 2315. SP

8-7-86 - Kelly has another Chlorine cylinder that he can't get the
valve open. Are we getting this from a different location or is
someone at the lat jamming these valves? We had had a
a few of these in the last month and the ones we are
getting open seem to require more force than normal.
There is no way to get them open using the regular wrench. (SP)
CHB & RR each need a Chlorine line. Neither plant has a
spare.
