

GRAINGER LAB CALLED 6 MAY 1982

COMMENTED THEY FOUND:

PERCENE

TRICHLOROETHYLENE (TCE)

} SYNTHETIC ORGANIC CLEANING SOLVENTS

IN SAMPLES

001-005 (TT WATER SYSTEM)

037-041 (HP WATER SYSTEM)

THEY STATED THAT THE TCE PEAK FOR HP SAMPLES OVERLAPPED THE BROMODICHLOROETHANE PEAK THEREFORE ONLY A LESS THAN VALUE COULD BE READ

ANALYSIS WOULD COST \$75 FOR BOTH WITH 20% DISCOUNT **CLW**

FOR 20 OR MORE, 15% FOR 8-19, 5% FOR 20 OR MORE 0000000542
