Mr. Bruce Reed
North Carolina Department of Environment,
Health, and Natural Resources
Division of Environmental Management
Groundwater Section
127 Cardinal Drive
Wilmington, North Carolina 28405-3845

Dear Mr. Reed:

As requested in the meeting held on 17 April 1996, enclosure (1) is provided for additional background information of the supply wells located at Marine Corps Base, Camp Lejeune and Marine Corps Air Station, New River. Enclosure (2) provides a summary of the data for supply wells in the Hadnot Point industrial area.

Hadnot Point industrial area had eight supply wells of which the following have been removed: HP-601, HP-602, HP-608, HP-630 and HP-634. A contract is being developed that will remove HP-603. HP-642 has been temporarily taken off line pending additional sampling. HP-637 is not being used at this time, but may be used in the future to meet water supply requirements.

If you have any questions or comments, please contact Mr. Brent Rowse, Installation Restoration Division, Environmental Management Department, at telephone (910) 451-5068.

Sincerely,

ROBERT L. WARREN
Assistant Chief of Staff
Environmental Management
By direction of
the Commanding General

Encl:
(1) Sampling and Analysis of Groundwater Wells at the Marine Corps Base, Camp Lejeune, NC and Marine Corps Air Station New River, Jacksonville NC.
(2) Summary of Hadnot Point Supply Well Sample Data, 1984 to 1995.
