

16 OCTOBER 2000

Commanding General (Attn: AC/S, EMD)
Marine Corps Base, PSC Box 2004
Camp Lejeune, NC 28542-0004

- SUBJ: Earlier Requests for Environmental Data, MCB/CLWC
- Ref: (a) Major Townsend's Ltr to CG (Attn: AC/S, EMD) 25 Sept 2000
 (b) Major Townsend's Ltr to CG (Attn: AC/S, EMD) 16 Sept 2000
 (c) Major Townsend's Ltr to CG (Attn: AC/S, EMD) 11 Sept 2000
 (d) Major Townsend's Ltr to CG (Attn: AC/S, EMD) 11 Sept 2000

09/

References (a) - (d) remain unanswered to date. Summary of requests for data follows:

- (a) Asked if any contractors on CLWC remediation program utilized technical services of Intertek Testing Services, Ltd which has been indicted for false test reports.
- (b) Requested final draft of report contracted to Environmental Science and Engineering Inc (1991) re: HPIA Baseline Risk Assessment. Also questions about buildings cited as "Areas of Concern" and the historical uses of these designated building.
- (c) Asked what WA standards were used at Hadnot Point WTP between 1965-1967 and technical abilities/certification of Base Chemist or WA monitoring staff during that period.
- (d) Requested copy of publication contracted to USSS and dated 6/2/1987. Requested NACIP milestone report "Hadnot Point Characterization Study Report" (extent of pollution of groundwater supply) due by June 1987.
- Request advise status of these requests.
