SUBJ: Water Contamination, MCB, Camp Lejeune
Ref: (a) Maj. Townsend's ltr of 8 June 2001, same subject

Reference (a) discussed the inspection of the MCB water distribution system in 1980-1981 by the U.S. Army Environmental Health Agency, their findings regarding THM's in the system, and the reports made to CG, MCB at that time.

Two questions were posed within the text of reference (a) that I would appreciate a response to at this time.
