Dear Mr. Brewer:

I note the "Chronology of Water Contamination at Marine Corps Base Camp Lejeune" has not been revised per your advice of 22 August 2001. I believe the last update was in May -

Since this date reflects the official policy of HAME and is viewed by the public seeking some insight into the CLWC contamination problem it seems appropriate that the correction be made ASAP.

Realize you are busy with the restoration program; however, the text change does not require a monumental effort.

Regards,
