(3) Memo for the Record on 13 April 1981 Subj: Hazardous Wastes Sampling on 30 March 1981; Results of

1. On 10 April 1981, related to Reference (a) and the unusual results in Enclosure (3), it was decided at a meeting in the AC/S Facilities Office that resampling of the four locations in Enclosure (3) and further sampling at and surrounding the Dump will be done.

2. Around Noon on 10 April 1981, Mr. Danny Sharpe, Spvy Ecologist, and Elizabeth Betz, Spvy Chemist, set out to collect the samples. Enclosure (1) is the list of samples collected and Enclosure (2) is a map showing the location of the sample points. Jerry Wallmeyer, of LANTNAVFACENGCOM, joined E. Betz and D. Sharpe at 1430, at the Dump, to select some of the sample points.

3. Jerry Wallmeyer took custody of the samples and transported them to Jennings Lab., for analysis. During Reference (b) J. Wallmeyer stated that initial, unofficial (over the phone) results will be ready by 20 April 1981.
