Memorandum for the Record

From: Ms. Betz, Quality Control Lab., Environmental Section, NREAB, EMaintDiv

Subj: Rifle Range Water Treatment Plant Sampling on 5 April 1982

1. On 2 April 1982, Dave Goodwin of Lant Div called and requested additional samples be taken at Rifle Range Water Treatment Plant and its three wells. These samples were to be used to check Jennings Laboratories analysis. Dave Goodwin okayed the use of new quart Mason Jars with aluminum foil liners to put the samples in.

2. On 5 April 1982, Bob Lachapelle and Elizabeth Betz of the Quality Control Lab, went out to the Rifle Range to collect the samples. One quart jar was filled at each sample point. Below is a list of sample locations and the time of collection:

Sample Point	Time
RR-85 Water Treatment Plant - Finished Water Tap	1016
RR-47 Raw Water Well	1023
RR-45 Raw Water Well	1027
RR-97 Raw Water Well	1030

3. Later on ~~the~~ 5 April 1982, the samples were turned over to FP&P with proper paper work prepared by Rita Hise and Freight Traffic (Forms DD1348-1 and MCBCL 4030). They were to be shipped by UPS through Freight Traffic and received by Lant Div by 6 April 1982. Lant Div received the samples in good condition on 8 April 1982.
