Mr. Neal Paul  
Director  
Environmental Management Division  
Building 1  
US Marine Corps Base  
Camp LeJeune, North Carolina 28542

Dear Mr. Paul:

I am writing to request a copy of the 1982 and 1985 data on the Tarawa Terrace and Hadnot Point water systems. The Agency for Toxic Substances and Disease Registry (ATSDR) recently spoke with Betsy Betz from the Environmental Quality Analysis Section who told us she now has located this information. The specific documents I am requesting are as follows: (1) letter from Granger Laboratories dated August 10, 1982 and related correspondence; (2) THM reports from April 1982 through February 1985; (3) VOC analysis results from July 1984 through March 1985 and any information on the laboratory and quality control procedures used.

We are requesting this information in order to complete our analysis of the past environmental pathway of VOCs in drinking water for our public health assessment. I look forward to receiving this information. Thank you for your help. If you have any questions please call or write me at the following address:

ATSDR
