MAIN/DDS/th  
6240

AUG 0 8 1981

From: Commanding General  
To: Defense Property Disposal Officer (DPDO)

Subj: Material Abandoned at Lot 203; environmental considerations

Ref: (a) DPDO ltr DPDO-ZMM of 15 Apr 1981  
(b) CG MCB ltr MAIN/DDS/th 6240 of 8 Jun 1981  
(c) Section 103(c), Comprehensive Environmental Response Compensation and Liability Act of 1980

1. This letter is in response to reference (a) which requested guidance with regard to the subject material. DPDO is hereby advised that the Environmental Protection Agency (EPA) was advised by reference (b) that the subject lot was a site where discharges of DDT may have occurred in significant amounts. EPA was also advised that the site would be subjected to an intense study by the Naval Energy and Environmental Support Activity (NEESA), Port Hueneme, California, during Fiscal Year 1982. The EPA notification was made in accordance with requirements of reference (c).

2. At this time, no additional action is proposed. If DPDO has any information, records or other knowledge of discharges of hazardous material, which would indicate a need to immediately address this issue, this Command requests a written notification as soon as possible.

3. Point of contact is Mr. Danny Sharpe, Ecologist, Natural Resources and Environmental Affairs Branch, Base Maintenance Division, extension 2083.
