to relieve R.P.R.

CLW

000006790

2/21/80 0845 Returned Call from Mr Harris P+C.
for information on quick opening 8" valve
ordered on Doc. # 00450001, Mr Harris stated
that this valve was no longer provided, I asked
him to substitute it with a #310 Dyna Seal
ball valve 150 LB WP. He stated that would be
OK he would take care of it. WRP

2/19/80 1600, Called Mr Harris about Pump ordered on
P.O. # 3923 for T.I. 38, subject pump was installed
~~on~~ on Feb. 15-1980 by plumbing shop, pump was designed
to pump 500 GPM but was only doing 350 to 400 GPM
The plumbers had no success in making adjustments,
Mr Harris said he would call Mr Taylor of TENCARVA
and get back to me. WRP

2/19/80 1615 Mr Harris called stating that Mr
Taylor would meet me at T.I. 38 at 10:00 AM
Wed. Feb. 20-1980.

2/20/80 10:30 AM Mr Taylor came by, after studying
the pump data, he made an ~~adjusted~~ adjusted
adjustment on the impeller, this corrected the
problem the pump is now pumping 500 GPM
and everything is OK. WRP
