Plan Update

1. We approve and forward as enclosure (1), the Camp Lejeune Complex Master Plan and Capital Improvements Plan Update prepared by Atlantic Division, Naval Facilities Engineering Command as submitted by reference (a). This master plan was developed based on the best information available at the "snapshot in time" when it was begun. Some of the data included in it may be outdated due to mission changes that have occurred. However, we support the planning concepts as sound.

2. This approval is made with the understanding that any proposed Reconnaissance Battalion (RECON BN) projects will now be sited at Courthouse Bay vice Onslow Beach as stated in the plan. The BEQ for RECON BN contained in MILCON project P-630 will also be sited at Courthouse Bay. In addition this approval is made with the understanding that Basic Warrior Training facilities will be located at Camp Geiger with the School of Infantry.

3. Under the provisions of reference (b), minor revisions not in conflict with the basic Master Plan Update concepts may be locally approved. Major revisions will be approved by the Commandant of the Marine Corps.

4. The Master Plan Update is the official planning document for the Camp Lejeune Complex. It will be used to maintain continuity in future facilities planning and development and for siting all future facilities. This letter will be included as part of the Master Plan Update.
