Subj: PROPOSED TIMELINE FOR SITE MANAGEMENT PLAN (SMP) AND  
INTERIM ACTION AT HADNOT POINT INDUSTRIAL AREA (HPIA)

Ref: (a) 10 June 1991 fax from (Code 18)

1. MCB, Camp Lejeune received the reference at 1600 10 June 1991. The reference requested comments from MCB, Camp Lejeune by 13 June 1991. The IRP Manager has reviewed enclosures (1), (2) and (3) of the reference and concurs with the proposed timelines for the SMP and the Interim Action at the HPIA. Your efforts in reducing the original schedule is greatly appreciated and will demonstrate a good faith offer to EPA and the NC Department of Environment, Health, and Natural Resources.

2. Enclosures (4) and (5) of the reference should indicate that removal actions will be pursued if proven appropriate by geophysical surveys of sites 6 and 69. In addition, enclosure (4) of the reference should state that MCB, Camp Lejeune will continue to identify possible removal actions as site investigations proceed.

3. We want to thank you for traveling to MCB, Camp Lejeune on 6 June to discuss proposed changes to the timelines to be submitted to EPA and the State. If you have any further questions, please contact Stephany Del Re'-Johnson, at (919) 451-5093.
