RE: Final Record of Decision (ROD) for Operable Unit 7, Sites
           1, 28, and 30, MCB Camp Lejeune, Jacksonville, NC.
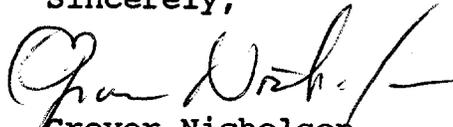

Dear Ms. Landman:

The NC Superfund Section has completed its review of the Record of
Decision for Operable Unit 7 and concurs with the selected remedy
subject to the following conditions.

   1.   The institutional controls established for Site 28 must
         include semi-annual sampling for surface water and
         sediment as agreed upon in the 4/17/96 meeting with the
         NC DEHNR Wilmington Regional Office.

   2.   This concurrence is based on the information presented in
         the Record of Decision, Remedial Investigation Report,
         Feasibility Study and the Proposed Remedial Action Plan.
         Should the State receive new or additional information
         which significantly affects this concurrence, it may be
         modified or withdrawn with appropriate written notice to
         the Navy and EPA Region IV.

   3.   Our concurrence with this Record of Decision in no way
         binds the State to concur in future decisions or commits
         the State to participate, financially or otherwise, in
         the cleanup of the site. The State reserves the right to
         review, comment, and make independent assessments of all
         future work relating to the site.

Please call Mr. Patrick Watters or me if you have any questions about this.

Sincerely,

Grover Nicholson
Head, Federal Remediation Branch
NC Superfund Section
