Mr. Larry Perry
North Carolina Department of Environment,
Health and Natural Resources
Division of Waste Management
Hazardous Waste Section
P.O. Box 29603
Raleigh, North Carolina 27611-9603

Dear Mr. Perry:

The enclosures are submitted in response to Mr. James A. Carter's letter of April 7, 1997, which requested copies of the records maintained by the Assistant Chief of Staff, Environmental Management Department that are applicable to the issue of sandblast grit allegedly being deposited near Brinson Creek.

Based upon the sheer volume of the records which make up this project file we extend to you or your representative the opportunity to review our file, determine if other documents are desired, and to have any questions or concerns addressed. In many instances the submitted documents are reproductions of records maintained by the contracts officer for Marine Corps Systems Command, Quantico, Virginia. Our files do not contain any information involving Coastal Area Management Act permits or identification of affected property owners. It is recommended that your request for this data be submitted to the Jacksonville City Manager's Office. In addition, as you are aware, an on-going investigation is being completed by the Naval Criminal Investigative Service and those records are not available to us.

If you should have any questions, please do not hesitate to contact Mr. Sammy Gwynn, Environmental Management Department, at (910) 451-5837.

Sincerely,

ROBERT L. WARREN
Assistant Chief of Staff
Environmental Management
By direction of
the Commanding General
