Re: Contract N62470-89-D-4814
Navy CLEAN, District III
Contract Task Order (CTO) 0312
Final Remedial Investigation Report
Operable Unit No. 9 (Sites 65 and 73)
MCB, Camp Lejeune, North Carolina

Dear Ms. Landman:

Baker Environmental, Inc. (Baker) is pleased to submit three sets of replacement pages for the Final Remedial Investigation (RI) Reports for Operable Unit No. 9 (Sites 65 and 73). Provided as Attachment A are the instructions for inserting the revised covers, spines, text, figures and appendices. Three complete unbound copies of these documents will be provided under separate cover during the week of November 10, 1997 for insertion into the Administrative Record.

Two copies of each submittal have been forwarded to Mr. Neal Paul at the Environmental Management Department (EMD), MCB Camp Lejeune. Additional copies have been provided to the United States Environmental Protection Agency (USEPA) Region IV, North Carolina Department of Environment and Natural Resources (NC DENR), Naval Environmental Health Center (NEHC), the Agency for Toxic Substance and Disease Registry (ATSDR), and OHM Corporation. Copies of the Executive Summary for each report have been submitted to the Restoration Advisory Board (RAB) community members as presented in the attached transmittal letters.

In accordance with our conversation on November 5, 1997, an electronic deliverable will follow this submission in the form of a compact disk. The disk will be forwarded upon it's completion by the subcontractor.

Baker's responses to comments provided by LANTDIV, the Environmental Management Department at MCB Camp Lejeune, USEPA, NC DENR, and NEHC to the Draft Remedial Investigation Reports are provided on the diskette in WordPerfect format (version 5.1). Prior to submission of the final document, Baker had discussed the responses with Ms. Gena Townsend of the USEPA, Mr. Dave Lown of NC DENR and Mr. Brian Marshburn of MCB Camp Lejeune. In each case Baker received verbal concurrence for our responses.

A Total Quality Corporation

Baker
