Contract Task Order (CTO) 0367  
Quarterly Groundwater Monitoring Reports  
Operable Unit No. 2 (Sites 6 and 82)  
Marine Corps Base Camp Lejeune, North Carolina

Dear Ms. Landman:

I am pleased to submit on behalf of Baker Environmental, Inc. (Baker) one bound and three unbound copies of the Quarterly Monitoring Report for Operable Unit (OU) No. 2, Marine Corps Base (MCB) Camp Lejeune, North Carolina. The report describes activities completed as part of the monitoring program at Sites 6 and 82 during the third calendar quarter of 1997. Two copies of the quarterly report have also been forwarded to Mr. Neal Paul at MCB, Camp Lejeune. Additional copies of the report have been distributed according to the attached transmittal letters.

This quarterly monitoring report represents the first comprehensive evaluation of conditions since implementation of the groundwater treatment system at Sites 6 and 82. Although this report presents only a "snapshot" of existing conditions, it is anticipated that future monitoring and treatment system evaluations will be able to provide more useful trend analyses.

We remain committed to providing the Navy and Marine Corps, in future quarterly reports, with recommendations that improve upon the cost-effectiveness of continued monitoring and groundwater treatment activities. Please contact me at (412) 269-2051 or Mr. Matthew D. Bartman (Activity Coordinator) at (412) 269-2053 with any questions or concerns you may have regarding this or any other of the monitoring reports.

Sincerely,

BAKER ENVIRONMENTAL, INC.

Thomas F. Trebilcock  
Project Manager
