Ms. Katherine Landman
Department of the Navy - Atlantic Division
Naval Facilities Engineering Command
Code 1823
Norfolk, Virginia 23511-6287

SUBJ: MCB Camp Lejeune
Draft Final 100% Design
Operable Unit No. 12 - Site 3

Dear Ms. Landman:

The Environmental Protection Agency (EPA) has completed its review of the above subject document. The document can be finalized with one exception. "Description of the Remedial Action," page 4, details the excavation from 3' to 9' or just above the water table. It is EPA's concern that by identifying the excavation area to "just above the water table," may leave contaminated soil on site during a high water event. The excavated area should be determined by the contaminated media.

If you have any questions or comments, please call me at (404) 562-8538.

Sincerely,

A handwritten signature in black ink, appearing to read "Gena D. Townsend".

Gena D. Townsend
Senior Project Manager
